**MEMORY VERSE/ACTIVITY:** *"Faith is being sure of what we hope for. It is being sure of what we do not see." Hebrews 11:1 (NIRV)*

**Toss Across.** Toss or roll a ball to one child. Have him say the first word of the verse before tossing or rolling the ball to someone else, who then says the next word, and so on. Continue until you complete the verse. If the ball is dropped, start over again. Time how long it takes to finish the verse; and try to beat the previous time.

**SUMMARY:** Noah's life was an experiment in faith. He spent years building an ark at God's command, and God rewarded his faithfulness by saving him and his family from the Great Flood.

## QUESTIONS?

Who was Noah?

What did God tell Noah to do?

Why did Noah obey God?

Can you think of something that is difficult for you to trust God with?

What can we do to find the faith to trust God more?

## PRAY IT!

Dear God,  
Thank you for the promises you've made to us. Help us to have more faith in you. In Jesus' name, Amen

# NOAH AND THE RAINBOW EXPERIMENT

## Items needed:

Empty bottle Measuring cup  
Dark Corn syrup  
Blue dishwashing liquid Water

Vegetable oil Rubbing alcohol Food coloring

## Web Link:

<https://www.youtube.com/watch?v=hSorsJ-IRYk>

## Instructions:

Prior to this experiment, measure how many ounces of liquid the empty bottle will hold, then divide by five. This is how many ounces of each liquid you will add during the experiment.

Begin by pouring the corn syrup into the bottle. Then add the dishwashing liquid. Add the water next with green food coloring to give it a green color. (Note: tilt the bottle when pouring the water inside to keep it from mixing with the soap.) Then add the vegetable oil, and then add rubbing alcohol dyed red.

Put the cap on the bottle and seal it tight. Slowly, turn the bottle upside down. The colors will shift and stay in rainbow formation!

## Lessons:

This experiment worked because we followed the steps lined out for us. We had faith it would work, and when we obeyed the instructions, it worked just as promised.

It only took us a few minutes to do this experiment in faith, but Noah worked over 100 years on the ark! Noah was faithful, and God rewarded his faith by saving his family.

God also gave Noah a sign that he would never flood the earth again - a rainbow! It's just one more reminder that God is faithful to those who obediently follow him.

## PAINTING RAINBOWS IN THE DARK

**ITEMS NEEDED:** Blindfolds Paper Brushes Paints

**INSTRUCTIONS:** Have children scan the paper and paints laid out before them. Give them a minute to look over the layout of the paints, then hand them brushes and blindfold them. The kids will have 90 seconds to try to paint a rainbow on their paper, blindfolded. When time is up, decide by applause who painted the best rainbow.

**WHAT'S THE POINT?** Rainbows remind us of Noah, and that we need to be faithfully obedient to God like Noah was.

## DECK THE STACK

**ITEMS NEEDED:** Four playing cards Five plastic cups

**INSTRUCTIONS:** Stack the cups and cards in a tower, with one card in between each cup. Choose a person for this game. Have them yank the cards out from between the cups one at a time to get all five cups stacked together.

**VARIATION:** An optional way to play is to make this a timed contest. You can set up four towers and give the contestant a minute to successfully get one of the towers to stack successfully.
